Social Media & Community Guidelines

At Team 18, we're proud of our fans, partners, competitors and the wider motorsport community. Our social media channels are a place to share that passion through the highs, the lows, the wins, the lessons and everything in between.

What we want to do is create a respectful, inclusive and passionate online community. We welcome discussion, debate and opinion. What we don't tolerate is behaviour that makes our community unsafe, unwelcoming or disrespectful.

These guidelines outline how we expect our online community to engage across all Team 18 digital platforms, and how we moderate and manage our channels.
